

Osborne Big Wheel® Bulk Feeders feature the same benefits as Osborne Big Wheel Nursery and Finishing Feeders, only on a larger scale. The large-capacity feeders are engineered to eliminate waste, adjustments, cleaning and plugging. Construction materials include Osborne RTM-Glas™ reinforced fiberglass and heavy-gauge hot-dipped galvanized steel on all the lower parts of the feeder to slow corrosion. They function equally well on level and sloped areas, inside barns, or out in the open. Plugging is not a problem, even after heavy rains, because the self-cleaning action of Big Wheel Feeders keeps feed flowing.

OSBORNE BIG WHEEL® BULK FEEDERS							
Catalog Number	Style	Model Number	Feed Capacity (tons tonnes)	Height (in cm)	Trough Diameter (in cm)	Hog Weight	Hog Capacity
FF-0RO25K	Galvanized	RO25	0.65 0.59	44 122	55.5 141	50 lbs. (23 kg) to market	Up to 90 head
FF-0RO45K	Galvanized	RO45	1.2 1.1	62 158	55.5 141	50 lbs. (23 kg) to market	Up to 90 head
FF-0RO65K	Galvanized	RO65	1.7 1.5	80 203	55.5 141	50 lbs. (23 kg) to market	Up to 90 head
