

HOG HUT™ Farrowing House

Raising pigs outdoors can be hard work without the proper equipment, but farmers are rewarded with happier, healthier animals that produce better quality meat. Osborne's **Hog Hut Farrowing House** provides premium shelter for farrowing sows and baby pigs – even in the dead of winter – so you can wean the maximum amount of animals.

Get the Hog Hut advantage.

HINGED FLOOR SYSTEM

Non-slip, impact resistant flooring system is hinged for automated dumping of contents.

FULLY INSULATED PANELS

R-7.5 insulated, corrosion resistant fiberglass-reinforced panels provide winter protection.

EASY OVERHEAD ACCESS

Hinged roof provides easy access to animals and can be opened for summer cooling.

SEPARATED CREEP AREA

Dedicated creep area provides protection for piglets to reduce crush losses.

HOG HUT™ Farrowing House

“ I farrow a lot of sows during the winter months, so ensuring my animals have a safe and warm location to farrow is important. I don't like to use heat lamps because of the danger they present, so I need a shelter that can stay warm with just the animals' body heat. Even during a particularly brutal cold spell and 10+ inches of snow, one of my sows farrowed in a Hog Hut and didn't lose a single piglet. The inside of the unit stayed between 50-60° F.

On the other hand, in the summer, the hinged roof allows for added natural ventilation capabilities during hot weather.

— Sean B. - Harrison, AR ”

BETTER FEATURES

- Insulated and hinged flooring system for winter protection, summer ground cooling, and “automated” dumping of internal contents
- Hinged roof for overhead access
- Reinforced 20 x 30 in. latching door

BETTER CONSTRUCTION

- Generous 46.5 ft² internal space with separated creep area
- R 7.5 insulated corrosion-resistant fiberglass-reinforced composite panels
- Hot-dipped galvanized steel support framework

BETTER RESULTS

- Protect pasture-raised sows and piglets from weather extremes
- Farrow the maximum amount of piglets in pasture settings
- Raise happy animals and top quality, great tasting meat
