

**Osborne's Stanfield® Heat Pads** provide a warm lying area for growing pigs and are up to 66% more energy efficient than heat lamps. Heat is distributed evenly and provides a uniform lying area 30-35°F (16-20°C) above air temperature.

Our heat pads outlast competitors; the heater element is totally enclosed in a durable composite plastic making them 100% water tight. Raised traction treads give pigs solid footing. By simply adding controllers, energy savings can be further extended by ramping down the temperature as piglets grow. Osborne heat pads are UL, CSA, CE, IEC and PSE tested and certified safe to operate.

## OSBORNE STANFIELD® HEAT PADS

Catalog Number	Size Feet   Meters	Power Output (W) Maximum at 120V	Energy Used kWh/Day Maximum	
<b>Two Litter Farrowing Heat Pads</b>				
 Pictured above: FH-RS2B40	FH-RS2B30	2.0 x 3.0   0.61 x 0.91	160	3.84
	FH-RS2B40	2.0 x 4.0   0.61 x 1.22	200	4.80
	FH-RS2B50	2.0 x 5.0   0.61 x 1.52	290	6.96
<b>One Litter Farrowing Heat Pads</b>				
 Pictured above: FH-RS1B40	FH-RS1B30	1.0 x 3.0   0.30 x 0.91	80	1.92
	FH-RS1B40	1.0 x 4.0   0.30 x 1.22	100	2.40
	FH-RS1B50	1.0 x 5.0   0.30 x 1.52	145	3.48
	FH-RS1824	1.5 x 2.0   0.46 x 0.61	95	2.28
	FH-RSE106	1.0 x 6.0   0.30 x 1.83 (L-Shaped)	160	3.84
 Pictured above: FH-RS1200	FH-RS1200	2.0 x 2.3 x 3.2   0.62 x 0.70 x 0.99	90	2.16
<b>Nursery Heat Pads</b>				
 Pictured above: FH-RS3030	FH-RS2030	2.0 x 3.0   0.61 x 0.91	115	2.76
	FH-RS3030	3.0 x 3.0   0.91 x 0.91	200	4.80
	FH-RS3040	3.0 x 4.0   0.91 x 1.22	275	6.60
	FH-RS3060	3.0 x 6.0   0.91 x 1.83	390	9.36

All heat pads available in other voltages and with international plugs.

### Osborne Heat Pad Power Cord Protectors

Help extend the life of your Osborne Stanfield® Heat Pads by using Osborne Power Cord Protectors. Rugged and durable fiberglass reinforced-plastic ensures the Power Cord Protectors withstand the harshest environments. The Power Cord Protectors protect the cord from being chewed by growing piglets and extends the life of the heat pad.

**Catalog #:** FH-00F152  
**Length:** 24 in. (61 cm)

The F152 Power Cord Protector is ideal for protecting heat pad cords when fastened to the floor.

**Catalog #:** FH-00F150  
**Length:** 16 in. (41 cm)

The F150 Power Cord Protector is ideal for protecting heat pad cords running up the side of a farrowing stall divider panel. When attached to a divider panel, the flared end of the F150 Power Cord Protector allows the panel to move, however, it does not put undue stress on the heat pad cord. When a sharp 90° exit is required for the heat pad cord, the F150 is the ideal candidate.

### Compare And See The Difference

You'll see that Heat Pads always come out ahead! If you are looking to reduce your energy costs and save time and labor, heat pads are the natural choice. Increase gain and weaning weights, reduce crush loss, and provide a healthy environment for baby pigs with Stanfield Heat Pads!

#### HEAT LAMPS

- Fire and over-heating hazard
- More time to maintain
  - Broken bulbs, damaged sockets, cord repairs
- Inefficient to operate
- Only days of useful life

#### HEAT PADS

- Non-flammable material
- Trouble-free use
- Most energy efficient
  - Up to 66% more efficient than heat lamps
- Years of useful life

### Smart-Fasteners

Easily install Osborne's Stanfield® Heat Pads, penning or other equipment with corrosion-resistant Smart-Fasteners from Osborne. The fasteners attach equipment to most farrowing and nursery plastic flooring.

**Catalog #:** RFM-1080

The Smart-Fastener for plastic flooring requires a 0.40 in. (10 mm) slot opening for easy installation.

Also ask about new Smart-Fasteners for concrete flooring!
